List Price

Mitutoyo's Parameter Setting Software works with Calculation Type, Peak-Value Hold and Bore Gauge Type ABS Digimatic Indicators. Parameter setting can take time, push buttons multiple times to check, but with Mitutoyo's parameter software kit you can input all parameters by PC and all setting items can be set and displayed at once, making your measurement time shorter! Learn more by following the QR Code above.

New functions, comfortable and simple handling is what the new generation of Digimatic ID-C indicators by Mitutoyo offers.
